

Burnt Hills – Ballston Lake Library Media Department **Library Media Skills Curriculum**

The K-12 Library Media Curriculum has three components:

- Skills of Library Media Center Use, or effective use of a library;
- Literary Understanding & Appreciation; and
- Skills of Inquiry, or information problem-solving.

In the elementary schools, the library program is delivered to students in grades K-5 during weekly, fixed classes. Students in grades 6-12 are taught library skills in lessons integrated with the subject areas. “Integration strengthens the teaching/learning process so that students can develop the vital skills necessary to locate, analyze, evaluate, interpret, and communicate information and ideas... The library program is an extension of the classroom.” (American Association of School Librarians)

After each section of the curriculum outline, the library skills are aligned and integrated with the New York State Education Department Learning Standards* (NYS), the International Society for Technology in Education (ISTE), the Standards for the 21st Century Learner from the American Association of School Librarians (IL), and the BH-BL 21st Century Framework Skills (21st C. Skills).
