

The Board of Education expects that all teaching personnel will fulfill the responsibilities they assume when they become teachers: to provide the best possible learning situation for each student; to continue their professional development; and to provide a suitable image for their students to emulate.

The Board of Education expects all professional personnel to abide by all the terms of the current Professional Agreement, to execute the duties as defined in the Teachers Handbook, in each building, and to follow the policy, philosophy and goals of the Board of Education.
